

Digital Ajo & Micro-Credit. *On OPay.*

A functional prototype walkthrough. AjoStack runs Nigerian rotating-savings circles on OPay's payment rails — transparent shared ledger, automated payouts, and a Gemini AI credit identity — with no human cash-handler.

01 **Landing — The Pitch**

Mobile-first landing. Digitises Nigeria's ajo/esusu rotating-savings circles on OPay rails, with a Gemini AI credit identity layered on top. 14.6M ajo participants, No formal credit trail today.

01 — THE PLATFORM

Nigeria's most trusted savings system.

Now on OPay.

AjoStack digitises ajo and esusu circles on OPay's payment rails — preserving the communal trust Nigerians already love, and adding a Gemini AI credit identity on top.

[Start Your Circle ↗](#)[See the problem](#)

14.6M

AJO PARTICIPANTS

₦0

CREDIT TRAIL TODAY

100%

DIGITAL, ZERO CASH

02 — THE PROBLEM

14.6 million invisibles.

Nigerians who save faithfully every week — but generate zero formal credit history. When the organiser disappears, there is no digital trail. No evidence. No recourse.

58%

of GDP is informal

70%

of participants are women

26%

adults financially excluded

30–50%

monthly interest from loan sharks

03 — WHAT'S BEEN TRIED

Why nothing else builds a *credit trail*.

AjoMoney

Digital ajo with peer-to-peer management

→ No credit output. Still relies on organiser trust. No OPay integration.

Cowrywise Circles

Group savings with interest-bearing pooling

→ Fixed-term only. No rotation model. No credit scoring. Smartphone-only.

Thrifo

Social savings groups with goal tracking

→ No payout automation. No AI layer. No USSD fallback for basic phones.

Bankly

Agent-banking thrift collection at scale

→ Agent-dependent. Still cash-first. No verifiable digital credit trail.

04 — HOW IT WORKS

The ajo circle you know.

Infrastructure you can trust.

01

Create or join an ajo circle.

Set contribution amount, frequency, and rotation order once. The platform enforces it — no organiser required.

02

Contributions debit automatically.

OPay wallets are debited on schedule. Every member sees every payment in real time. No cash. No risk.

03

The ledger is the authority.

Disputes that used to require confrontation are eliminated. The transparent, immutable record is visible to all members.

04

Your AjoScore opens doors.

Every on-time contribution builds your credit identity. After two cycles, you qualify for OPay-backed micro-loans.

05 — AJOSCORE

Your savings

behaviour. *Finally visible.*

Google Gemini analyses your contribution history — consistency, recovery, tenure, cycle completion — and produces an AjoScore. The first formal financial identity millions of Nigerians will ever have.

05 **AjoScore — Credit Identity**

Deterministic weighted score (on-time rate, completed cycles, consistency, tenure, late-recovery).

Gemini turns the numbers into plain-language explanation. The first formal credit identity millions will have.

09 — AJOSCORE

Your credit identity. *Earned, not given.*

Google Gemini analyses your ajo contribution history across all your circles and produces a score that represents your financial discipline — behaviour you're already doing, now formally visible.

10 — SCORE BREAKDOWN

Five signals. *One number.*

Gemini weights five behavioural signals from your ajo history. Each signals a different dimension of financial reliability. Together they are more predictive than a bank statement.

Gemini AI Analysis · May 30, 2026

Ngozi demonstrates strong financial discipline across 3 active circles. 94% on-time rate, zero missed cycles, and consistent ₦5,000-₦20,000 contribution bands. One late payment recovered same-day (Week 3, Awka circle). Eligible for micro-credit up to ₦150,000.

WEIGHTED RUBRIC — 5 SIGNALS

On-time contribution rate 35% weight · 94%

18/19 contributions on schedule

Completed cycles 25% weight · 88%

4 of 5 circles completed to end

Contribution consistency 28% weight · 88%

Avg. deviation: ₦0 across all groups

Group tenure 12% weight · 67%

8 months oldest group membership

Default / late recovery 8% weight · 100%

1 late payment — recovered same day

11 — MICRO-CREDIT

Score of 782. *₦150,000 available.*

Your AjoScore unlocks OPay-backed micro-loans disbursed directly to your wallet. Repayment is automatic — deducted from your future ajo contributions. No bank visit. No collateral.

[Apply Now ↗](#)

06 **Micro-Credit Bridge**

Score-gated routing into OPay's licensed lending. Loan calculator, flat 2.5% fee vs 30–50% from loan sharks, auto-repayment from future contributions. AjoStack links out — it never originates loans itself.

12 — MICRO-CREDIT

Emergency capital. On your own terms.

Your AjoScore of 782 qualifies you for up to ₦150,000. Disbursed instantly to your OPay wallet. Repaid through your ajo contributions.

REPAYMENT METHOD

✓ Auto-deduct from weekly ajo contributions

Your payout falls in Week 9 (Awka circle). Repayment will automatically start Week 10 to avoid clashing with the week you collect.

Apply for ₦75,000 ↗

Zero predatory rates. AjoStack charges a flat 2.5% fee — versus 30-50% monthly from informal lenders. Repayment is deducted automatically from your ajo contributions so you never miss a payment.

07 **Create a Circle**

Three-step wizard: set rules (amount, frequency, size), invite members by phone, set payout rotation order (manual reorder or randomise). The platform enforces the rules — no human cash-handler.

STEP 1 OF 3 — CIRCLE RULES

Set the rules once. *The platform enforces them.*

You're taking on responsibility. Let's make it official.

CIRCLE NAME

e.g. Awka Market Women Circle

CONTRIBUTION AMOUNT — ₦5,000

FREQUENCY
